

ANSHU JAIN

Data Analyst

Varanasi, India | +91-7877541030 | jainanshu60@gmail.com | LinkedIn: [anshu-jain-aa6698a5](#) | GitHub: [anshujain-analytics](#)

PROFESSIONAL SUMMARY

Data Analyst with hands-on expertise in Power BI, Tableau, SQL, Excel, DAX, and Power Query, backed by a strong foundation in QA and business process analysis. Skilled in dashboard development, data cleaning, data modeling, KPI reporting, and translating raw data into actionable business insights. Completed structured, multi-organization training in data analytics and visualization (Deloitte, BCG X, Tata, Techtip24) to transition fully into data-focused roles. Brings a detail-oriented, quality-driven mindset from prior QA experience, combined with strong analytical thinking and stakeholder communication skills.

TECHNICAL SKILLS

BI & Visualization Tools: Power BI, Tableau, Data Visualisation, Dashboard Development

Data & Query Skills: SQL, DAX, Power Query, Data Cleaning, Data Modeling, Data Transformation

Analysis & Reporting: KPI Reporting, Statistical Analysis, Business Analysis, Data Storytelling

Tools: Excel

Core Strengths: Business Intelligence, Insights Generation, Problem Solving, Communication, Data Collection & Management

WORK EXPERIENCE

Quality Analyst / QA Engineer

Feb 2016 – Jul 2022

Dotsquares, Metacube Softwares, BR Softech, Arka Softwares, Syon Infomedia, Educomp Solutions — Jaipur

- Delivered functional, regression, and usability testing across web, mobile (Android/iOS), and Salesforce platforms for 6+ enterprise clients over 5+ years
- Conducted requirement analysis, test planning, and defect management; tracked issues via JIRA and reported quality metrics to leadership
- Collaborated cross-functionally with developers, business analysts, and project managers within Agile/Scrum delivery cycles
- Built strong analytical thinking and attention to detail — skills directly transferable to data validation, anomaly detection, and quality-driven reporting

Career Transition to Data Analytics

2022 – 2026

- Completed structured data analytics training across multiple programs (Deloitte, BCG X, Tata, Techtip24), gaining hands-on proficiency in Power BI, Tableau, SQL, and DAX
- **Budget vs Sales Dashboard** — Built interactive Power BI dashboard tracking KPI performance across dimensions
- **HR Attrition Dashboard** — Analyzed workforce demographics, retention, and job satisfaction trends
- **Amazon Sales Report** — Built data models analyzing sales by geography, category, and shipping mode
- **SQL Sales Analysis** — Performed joins, subqueries, and aggregate reporting for customer/sales insights
- Additional projects: **Hotel Revenue Dashboard, Laptop Market Analysis, Global Superstore Analysis, Student AI Impact Analysis (Power BI, Tableau, SQL)**

CERTIFICATIONS & ACHIEVEMENTS

- Data and Business Analytics Master Training
- ISTQB (Certified Tester)
- Salesforce Administrator (Certified)
- Best Employer Award — Dotsquares (2018)
- Dotsquares Client Appreciation Award (2022)
